METRO LINE WORK WON'T HIT SOUTH CENTRAL RAIL SERVICE

DC CORRESPONDENT
HYDERABAD, APRIL 5

There will be no disruption of SCR train services when railway line crossing works are taken up for the Hyderabad Metro Rail at eight locations in the city.

The Metro line across the three corridors will have eight railway track crossings, of which four are near the Secunderabad railway station — Alugaddabavi,

Chilkaiguda, Oliphanta Bridge and Bhoiguda. Other rail crossings are at Bharatnagar, Lakdikapul, Malakpet and Begumpet.

Railway Board member (engineering) S.K. Jain inspected the locations along with HMR managing director N.V.S. Reddy on Saturday to finalise the precautionary measures needed to be taken during railway crossing works.
